

Table 4. Correlation between the gestational age and the lamellar body count in the whole study population, in those giving birth to babies with RDS, and those giving birth to babies without RDS.

		Gestational age		
		All patients(n=47)	No RDS (n=27)	RDS (n=20)
LBC	Spearman rho (ρ)	0.894	0.614	0.751
	p-value	<0.0001	0.0007	0.0001

LBC, lamellar body count.
